

NRG Solutions AG

Fact Sheet

Development, construction and management of battery energy storage systems (BESS) in Switzerland, from 1 MW of grid connection capacity, modular and scalable.

Battery storage system SABAG, Rothenburg (LU)

2023

Founded

4

Systems in operation

4.075 MW

Power in operation

6.256 MWh

Capacity in operation

Company

Headquarters

Platz 4
6039 Root D4 (LU)

Further location

Rue des Moulins 51
2000 Neuchâtel

Target groups

Industry, commerce, logistics, sites and energy suppliers.

Team and management

Mathias Andermatt

CEO, Chairman of the Board and Co-Founder

Silvan Käch

COO

Dr. Bodo Fink

CRO

Nils Henn

Head of Infrastructure & Energy Supply

Dr. Maud Tarret

Head of Energy & Grid Services

Further team members

Adrien Luc Elmiger and Andrés Zárate (Sales), Regina Graf (Energy & Grid Services) and Pirmin Mathis (Electrical Engineering).

Strategic roles

Diraj Dass (Board Member, Strategic Finance Partner, Fractional CFO); Samuel Bontadelli (Managing Director & Board Member, NRG Optimization AG). Supported by partners and advisors.

Business areas

Project development and construction

Feasibility and profitability analyses, engineering, procurement, construction coordination and commissioning of battery storage systems.

Financing and contracting

Financing, construction and operation of storage projects under a contracting model.

Operation and management

Management, optimisation, monitoring and maintenance of the storage systems; combining suitable applications such as self-consumption, peak shaving, arbitrage and ancillary services.

Energy and grid services

Services covering grid economics, energy procurement, energy marketing and regulatory matters.

Reference systems in operation

System / location	Commissioned	Power (MW)	Capacity (MWh)	
SABAG, Rothenburg (LU)	May 2026	3.45	5	
Lustenberger, Malters (LU)	June 2026	0.375	0.783	
Marti Technik, Oberburg (BE)	May 2026	0.125	0.258	
Hofgenuss, Rain (LU)	October 2025	0.125	0.215	
Total		4.075	6.256	

MW = power; MWh = storage capacity. A reference system does not mean that NRG owns or markets it.
